CICTAS1

Thermal Alert System:

Sensor type: Thermopile array with integrated video ranging and targeting. Three units are used in a vertically spaced arrangement

3 X Sensors with Thermal Resolution: 4 X 4 pixel

3 X Field of view: 46 degrees horizontal
44 degrees vertical

Operational indoor/outdoor thermal range 24C to 45C
not affecting accuracy

Thermal Resolution: 0.15 F (NETD)

Video Targeting and thermal scan: By correlating video cam output with thermal scan data target temperature is determined

Day Resolution: 3 X 3840 X 2880 pixels => 3 X (13MP)

Frame Rate: 60 frames/second

Contrast: Automatic

Brightness: Automatic

Recording Output: YES

Tablet support WiFi: YES
